**PLEASE REFER TO ADDITIONAL
INFORMATION IN 3 - RINGED BINDERS**

Added July 23, 2003

The pages stapled to this sheet were copied from the Peerless 104(e) files. Dayton Walther referred to them in its 104(e) response dated May 13, 1994. Please note that although Dayton Walther refers to only Craig Ellis as having pertinent information regarding the company's waste practices, one of these documents refers to a Jim Smith as a Walther contact.

Dayton, OH 45401

Dear Mr. McGregor:

As indicated in my May 14, 1987 letter to you, spent foundry sand from Dayton Walther Corporation is approved for disposal at the Peerless Transportation Company landfill at 960 Brandt Pike.

Bentonite has been identified as a component of the foundry sand. It is a naturally occurring rock composed of clayey materials. As previously stated the foundry sand has met all the parameters of the EP toxicity required by Ohio E.P.A. the only special handling required in minimizing the water content prior to disposal.

If you have further questions please contact me at 225-5916.

Sincerely,

Thomas A. Hut

RE: Valleycrest Landfill, Dayton OH

Dear Mr. Schregardus:

We represent Dayton-Walther in this proceeding and hereby notify you that Dayton-Walther is willing to participate in the Valleycrest proceeding on an equitable basis. Dayton-Walther asks that the Ohio Environmental Protection Agency assist in convoking a settlement process which encompasses as many settlers as possible, including all former owners and operators of the site. Dayton-Walther will be joining the PRP committee now being formed.

Re: 104(e) Information Request for North Sanitary Landfill a/k/a Valley Crest Landfill
Montgomery County, Dayton, Ohio, Supplemental Response

Dear Mr. Kollar:

As stated in our May 13, 1994 information request response we are providing further information for your files. The further information is provided following the Appendix D question number below:

1. Further information is provided on the operations located at 1366 Miami Chapel Road, Dayton, Ohio in the enclosed affidavit of John L. Wantz.
2. Documents from two companies appear in the files which are being forwarded under separate cover. They are Peerless Transportation and Mad River Transportation, Inc. Craig Ellis has not returned my phone request for information regarding this site. I have left the request at 513-222-1101.
3. The shipping documents being forwarded under separate cover identify Brant Pike as a disposal site used by the facility in 1987, 1988 and 1989..
4. Documents are being summarized and will be forwarded shortly under separate cover.
5. The shipping documents refer to several generic commodities: sand, sludge, lugger, tanker, dust, ash, slag and many of them were not identified and are unknown.

KELSEY-HAYES
GROUP OF COMPANIES

6. The volume of the materials hauled was not identified except on one or two documents. A summary of the total number of loads hauled by year and type of generic commodity will be submitted with the documentation. The charges appear to be more equipment and time related than related to the volume of material disposed.
7. No additional analytical or material safety data sheet information has been obtained.
8. The only insurance information that we have been able to obtain is that City Insurance Company, policy number GL 98 86 51 covering 2/1/86 through 2/1/87 had a \$2 million CSL limit with an absolute pollution exclusion.

We are willing and are interesting in participating in future negotiations regarding this site. Please inform of us the August 3, time and meeting location.

Sincerely yours,

John A. Mogelnicki

AFFIDAVIT

ITEM A:

NAME: John L. Wantz
Human Resource Manager
Moraine Division
Dayton Walther Corporation
2490 Arbor Blvd.
Moraine, OH 45439

ITEM B:

Employment at Dayton Walther (38 years)

1956 - 1983 - various management positions from clerk to machine shop superintendent- Dayton Division
1983 - 1985 - Industrial Relations Manager- Moraine Division
1985 - 1986 - Workers' Comp & Safety- Corporate
1986 - 1988 - Industrial Relations Manager- Dayton Castings
1989 - present - Human Resource Manager- Moraine Division

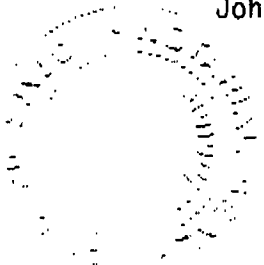

ITEM C:

(from Attachment D)

1. a) 1905 - 1983 - machine shop and foundry
1985 - October, 1990 - foundry only
Dayton Casting Center name used approximately five (5) years.
 - b) machining and casting operation.
 - c) metal shavings from machining operation and used sand and slag from foundry operation.
 - d) metal shavings back to foundry for re-melting. To the best of my knowledge, the sand and foundry slag was disposed of by the Company-owned trucks to the Vance Road landfill up to 1983, and from 1985 to 1990, by Peerless Transportation.
 - e) 3303.
2. To the best of my knowledge, only Peerless Transportation during the operation of Dayton Casting Center (1985-1990). Dayton Casting Center Maintenance Manager, Craig Ellis, would know of waste procedures for Dayton Casting Center.
3. Not to my knowledge.
4. I have no knowledge of any shipping documents or other business documents relating to transportation, storage or disposal of waste materials.
5. To the best of my knowledge, only sand and slag were disposed of from the facility.
6. I have no knowledge of actual amounts of waste material.

John L. Wantz
Affidavit
Page 2

7. To the best of my knowledge, the records were kept in the Maintenance Office, and during the shut down procedure (1990), I observed all records from the Maintenance Office being disposed of in large trash hoppers.
8. I have no knowledge of any insurance policies or insurance coverage.

Re: 104(e) Information Request for North Sanitary Landfill a/k/a Valley Crest Landfill
Montgomery County, Dayton, Ohio

Dear Mr. Kollar:

This letter is our initial response to the 104 information request sent to us by Jeff G. Hines, Acting Unit Supervisor, Division of Emergency and Remedial Response with a letter dated March 31, 1994. Due to the closed and sold status of the foundry facility which Dayton Walther previously operated in Dayton, Ohio, the availability of records and personnel are limited. We intend to fully cooperate with the OEPA and provide as complete a response to the information request as possible. We provide a brief response to the questions listed in the information request below:

1. The operation located at 1366 Miami Chapel Road in Dayton, Ohio was a foundry for producing castings for heavy duty component parts. Waste generated would have included the foundry sand and associated waste, waste disposal practices in general included hauling ourselves to the Vance Road Landfill in the early operations of the facility which closed approximately in 1981.
2. From 1964 through 1981 we believe waste were hauled in our own vehicles to the Vance Road Landfill. The facility was closed between 1981 and 1986. The 1987 through 1989 documentation location has just been identified. The documents are being retrieved for submission to you. We have observed two document in the Peerless Transportation Companies response in the OEPA site file indicating that they were dealing with a Mr. Craig Ellis at the Dayton Walther foundry.
3. Until we review documentation or are able to get a response from Mr. Ellis, we do not know the answer to this question.

KELSEY-HAYES
GROUP OF COMPANIES

Mr. Kurt Kollar
May 13, 1994
Page Two

4. See question 3.
5. See question 3.
6. See question 3.
7. See question 3. We note that in the Peerless Transportation Companies 104(e) response there is analytical information regarding the Dayton Walther foundry.
8. We are in the process of compiling this insurance information and will provide it in a supplementary response.

Please note that the Dayton Walther foundry in Dayton, Ohio only became known as the Dayton Casting Center for Dayton Walther when it reopened in the 1986 - 1987 time frame. We believe that all references to Dayton Castings Company prior to that time frame are to an entity which has nothing to do with Dayton Walther Corporation and has never been owned or operated by Dayton Walther Corporation.

Thank you for your consideration and understanding of the difficulties we are encountering in obtaining the information necessary to complete the response to the information request. If you have any questions, please contact me at 313-513-4472.

Sincerely yours,

John A. Mogelnicki

Re: North Sanitary Landfill aka Valley Crest Landfill, Montgomery County, Dayton, Ohio

Dear Mr. Kollar:

This letter is to confirm our telephone conversation of April 27, 1994. Due to a mailing mishandling you have granted us until May 13, 1994 to submit our response to the general notice letter information request.

Please note that we are handling the response for Dayton Walther Corporation. Your letter was addressed to Mr. Steve Palm, President at 2800 East River Rd., Dayton, Ohio 45439. Please note the new address for my office is 11878 Hubbard, Livonia, Michigan 48150. My phone number is 313-513-4472 and our fax number is 313-513-4480.

Re: 104(e) Information Request for North Sanitary Landfill a/k/a Valley Crest Landfill
Montgomery County, Dayton, Ohio, Supplemental Response

Dear Mr. Kollar:

As stated in our May 13, 1994 information request response we are providing further information for your files. The further information is provided following the Appendix D question number below:

1. Further information is provided on the operations located at 1366 Miami Chapel Road, Dayton, Ohio in the enclosed affidavit of John L. Wantz.
2. Documents from two companies appear in the files which are being forwarded under separate cover. They are Peerless Transportation and Mad River Transportation, Inc. Craig Ellis has not returned my phone request for information regarding this site. I have left the request at 513-222-1101.
3. The shipping documents being forwarded under separate cover identify Brant Pike as a disposal site used by the facility in 1987, 1988 and 1989..
4. Documents are being summarized and will be forwarded shortly under separate cover.
5. The shipping documents refer to several generic commodities: sand, sludge, lugger, tanker, dust, ash, slag and many of them were not identified and are unknown.

6. The volume of the materials hauled was not identified except on one or two documents. A summary of the total number of loads hauled by year and type of generic commodity will be submitted with the documentation. The charges appear to be more equipment and time related than related to the volume of material disposed.
7. No additional analytical or material safety data sheet information has been obtained.
8. The only insurance information that we have been able to obtain is that City Insurance Company, policy number GL 98 86 51 covering 2/1/86 through 2/1/87 had a \$2 million CSL limit with an absolute pollution exclusion.

We are willing and are interesting in participating in future negotiations regarding this site. Please inform of us the August 3, time and meeting location.

Sincerely yours,

A handwritten signature in dark ink, appearing to read "John A. Mogelnicki". The signature is fluid and cursive, written over a light background.

JOHN L. WANTZ

AFFIDAVIT

ITEM A:

NAME: John L. Wantz
Human Resource Manager
Moraine Division
Dayton Walther Corporation
2490 Arbor Blvd.
Moraine, OH 45439

ITEM B:

Employment at Dayton Walther (38 years)

1956 - 1983 - various management positions from clerk to machine shop superintendent- Dayton Division
1983 - 1985 - Industrial Relations Manager- Moraine Division
1985 - 1986 - Workers' Comp & Safety- Corporate
1986 - 1988 - Industrial Relations Manager- Dayton Castings
1989 - present - Human Resource Manager- Moraine Division

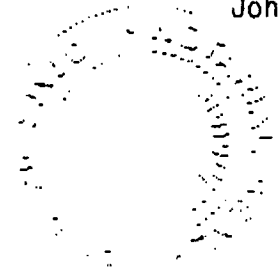

ITEM C:

(from Attachment D)

1. a) 1905 - 1983 - machine shop and foundry
1985 - October, 1990 - foundry only
Dayton Casting Center name used approximately five (5) years.
 - b) machining and casting operation.
 - c) metal shavings from machining operation and used sand and slag from foundry operation.
 - d) metal shavings back to foundry for re-melting. To the best of my knowledge, the sand and foundry slag was disposed of by the Company-owned trucks to the Vance Road landfill up to 1983, and from 1985 to 1990, by Peerless Transportation, 3303.
 - e) 3303.
2. To the best of my knowledge, only Peerless Transportation during the operation of Dayton Casting Center (1985-1990), Dayton Casting Center Maintenance Manager, Craig Ellis, would know of waste procedures for Dayton Casting Center.
3. Not to my knowledge.
4. I have no knowledge of any shipping documents or other business documents relating to transportation, storage or disposal of waste materials.
5. To the best of my knowledge, only sand and slag were disposed of from the facility.
6. I have no knowledge of actual amounts of waste material.

John L. Wantz
Affidavit
Page 2

7. To the best of my knowledge, the records were kept in the Maintenance Office, and during the shut down procedure (1990), I observed all records from the Maintenance Office being disposed of in large trash hoppers.
8. I have no knowledge of any insurance policies or insurance coverage.

Re: 104(e) Information Request for North Sanitary Landfill a/k/a Valley Crest Landfill
Montgomery County, Dayton, Ohio

Dear Mr. Kollar:

This letter is our initial response to the 104 information request sent to us by Jeff G. Hines, Acting Unit Supervisor, Division of Emergency and Remedial Response with a letter dated March 31, 1994. Due to the closed and sold status of the foundry facility which Dayton Walther previously operated in Dayton, Ohio, the availability of records and personnel are limited. We intend to fully cooperate with the OEPA and provide as complete a response to the information request as possible. We provide a brief response to the questions listed in the information request below:

1. The operation located at 1366 Miami Chapel Road in Dayton, Ohio was a foundry for producing castings for heavy duty component parts. Waste generated would have included the foundry sand and associated waste, waste disposal practices in general included hauling ourselves to the Vance Road Landfill in the early operations of the facility which closed approximately in 1981.
2. From 1964 through 1981 we believe waste were hauled in our own vehicles to the Vance Road Landfill. The facility was closed between 1981 and 1986. The 1987 through 1989 documentation location has just been identified. The documents are being retrieved for submission to you. We have observed two document in the Peerless Transportation Companies response in the OEPA site file indicating that they were dealing with a Mr. Craig Ellis at the Dayton Walther foundry.
3. Until we review documentation or are able to get a response from Mr. Ellis, we do not know the answer to this question.

Mr. Kurt Kollar
May 13, 1994
Page Two

4. See question 3.
5. See question 3.
6. See question 3.
7. See question 3. We note that in the Peerless Transportation Companies 104(e) response there is analytical information regarding the Dayton Walther foundry.
8. We are in the process of compiling this insurance information and will provide it in a supplementary response.

Please note that the Dayton Walther foundry in Dayton, Ohio only became known as the Dayton Casting Center for Dayton Walther when it reopened in the 1986 - 1987 time frame. We believe that all references to Dayton Castings Company prior to that time frame are to an entity which has nothing to do with Dayton Walther Corporation and has never been owned or operated by Dayton Walther Corporation.

Thank you for your consideration and understanding of the difficulties we are encountering in obtaining the information necessary to complete the response to the information request. If you have any questions, please contact me at 313-513-4472.

Sincerely yours,

A handwritten signature in dark ink, appearing to read "John A. Mogelnicki". The signature is fluid and cursive, with a long horizontal stroke at the end.

AFFIDAVIT

STATE OF MICHIGAN
COUNTY OF WAYNE

The undersigned representative, John A. Mogelnicki, Manager Environmental Engineering Kelsey-Hayes Group, on behalf of Dayton Walther Corporation, appeared before me and being first duly sworn deposes and says on oath:

1. This affidavit is being made as part of the corporation's response to a request for information pursuant to section 104(e) for the Comprehensive Environmental Response Compensation and Liability Act (CERCLA) for Valleycrest Landfill (a/k/a North Sanitary Landfill), Dayton, Ohio.
2. Dayton Walther is part of the Kelsey-Hayes Group and as such the corporate environmental staff handles the responses for CERCLA inquiries.
3. The corporation has begun a diligent search of its records pertaining to the site and is attempting to contact former employees who may have knowledge or information relating to this site.
4. Further supplemental submission will be made to the Ohio EPA as soon as additional information is obtained.

John Mogelnicki

Sworn to and subscribed before me by John A. Mogelnicki, Manager Environmental Engineering, this 12th day of May 1994.

RE: NORTH SANITARY LANDFILL
AKA VALLEYCREST LANDFILL
MONTGOMERY COUNTY
DAYTON, OHIO

GENERAL NOTICE LETTER
URGENT LEGAL MATTER--PROMPT REPLY NECESSARY
CERTIFIED MAIL; RETURN RECEIPT REQUESTED

MR STEVE PALM
PRESIDENT
DAYTON WALTHER CORP
2800 E RIVER RD
DAYTON OH 45439

Dear Mr. Palm:

This letter notifies you of potential liability pursuant to Section 6111.03 and 3734.20 of the Ohio Revised Code, and Section 107(a) of the Comprehensive Environmental Response Compensation and Liability Act, 42 U.S.C. Section 9607(a), as amended (CERCLA), that you may incur or may have already incurred with respect to the above-referenced site. This letter also notifies you of potential response activities at the site, which you may be asked to perform or finance at a later date. The Ohio Environmental Protection Agency (Ohio EPA) through a Cooperative Agreement (CA) with the United States Environmental Protection Agency (USEPA) has been granted the authority to conduct state-lead enforcement actions at this site, a proposed National Priorities List (Superfund) site.

NOTICE OF POTENTIAL LIABILITY

The USEPA along with Ohio EPA have documented the release, threatened release, and/or disposal of hazardous waste, hazardous substances, industrial waste, solid waste, other wastes, pollutants, or contaminants at the above-referenced site. Both the USEPA and Ohio EPA have spent, or are considering spending, public funds on actions to investigate and control such releases or threatened releases at the site. Unless Ohio EPA reaches an agreement under which a potentially liable party or parties will properly perform or finance such actions, USEPA may perform these actions pursuant to Section 104 of CERCLA, 42 U.S.C. Section 9604.

Mr. Palm
March 31, 1994
Page 2

Under Section 6111.03 and 3734.20 of the Ohio Revised Code, and pursuant to Sections 106(a) and 107(a) of CERCLA, 42 U.S.C., Sections 9606(a) and 9607(a), Section 7003 of the Resource Conservation and Recovery Act, 42 U.S.C. Section 6973 as amended (RCRA), and other laws, potentially liable parties may be ordered to perform response actions deemed necessary by either OEPA or USEPA to protect the public health, welfare, or the environment, and may be liable for all costs incurred by the government in responding to any release or threatened release at the site. Such actions and costs may include but are not limited to, expenditures for conducting a Remedial Investigation/Feasibility Study (RI/FS), conducting a Remedial Design/Remedial Action (RD/RA), and other investigation, planning, response, oversight, and enforcement activities. In addition, potentially liable parties may be required to pay for damages for injury to, destruction of, or loss of natural resources, including the cost of assessing such damages.

Ohio EPA has evaluated information in connection with the investigations of the site. The information received indicates that your company may have: owned or operated the facility, generated or transported hazardous waste, hazardous substances, solid waste, industrial waste, and/or other waste which were disposed of at the facility. Based on this information, Ohio EPA believes that your organization may be a potentially responsible party (PRP) with respect to this site. Potentially responsible parties under state law include current and former owners and operators of the site as well as persons who arranged for transportation and/or disposal of industrial, solid, or other waste at this facility. By this letter, Ohio EPA notifies your organization of its potential liability with regard to this matter and encourages your organization to voluntarily perform or finance those response activities that Ohio EPA determines are necessary at the facility.

In accordance with state law, CERCLA, and other authorities, Ohio EPA and USEPA have already undertaken certain actions and incurred certain costs in response to conditions at the site. These response actions include but are not limited to: preliminary assessments (PA), site inspection (SI), listing site inspection (LSI), removal action evaluation, and PRP identification. Ohio EPA and/or USEPA may expend additional funds for response activities at the site under the authority of state law, CERCLA, and other laws.

Mr. Palm
March 31, 1994
Page 3

INFORMATION TO ASSIST RESPONSIBLE PARTIES

Ohio EPA would like to encourage good faith negotiations between the PRPs and Ohio EPA, as well as among all the PRPs. To assist PRPs in preparing a proposal and in negotiating with Ohio EPA concerning this matter, Ohio EPA is providing the following information as an attachment to this letter:

1. "Attachment A" which includes a list of names and addresses of PRPs to whom this notification is being sent. This list represents Ohio EPA's preliminary findings on the identities of PRPs. Inclusion on, or exclusion from the list does not constitute a final determination by Ohio EPA concerning the liability of any party for the conditions at the facility which constitute a substantial threat to the public health or safety or are causing or contributing to or threatening to cause or contribute to air or water pollution or soil contamination or is polluting waters of the state.
2. "Attachment B" which includes a fact sheet that describes the site.
3. "Attachment C" which includes a list of all entities that were issued an Information Request. The list includes entities that were either defunct or unable to be located.
4. Due to the information available on the site no volumetric ranking of PRPs was compiled.

PRP STEERING COMMITTEE

Ohio EPA recommends that you contact the other PRPs to arrange a steering committee organized on behalf of participating PRPs or any other group formed or forming. In order to have input in a possible settlement with a PRP steering committee group or to avoid involvement in a possible civil suit, your organization may want to become involved immediately in steering committee meetings.

Ohio EPA intends to begin negotiating an agreement for the site on July 20, 1994. Ohio EPA will allow ninety (90) days to reach a settlement. The importance of the PRPs being organized prior to this date cannot be understated.

Ohio EPA is organizing the first meeting between the PRPs, Ohio EPA, and USEPA which your organization is encouraged to attend. The details of the meeting are as follows:

Location: Dayton, Ohio
Date: August 3, 1994

The exact meeting place and start time have not yet been

Mr. Palm
March 31, 1994
Page 4

established. Future correspondence will be sent to you which will provide this information. Ohio EPA encourages each PRP to select at least one person to attend this meeting to represent its interests.

ADMINISTRATIVE RECORD

Pursuant to CERCLA Section 113(k), USEPA must establish an administrative record that contains documents that form the basis of USEPA's decision on the selection of a response action for a site. The CA requires Ohio EPA to fulfill this requirement for USEPA. The administrative record files, which contain the documents related to the response action selected for this site, are available to the public for inspection and comment at the following Information Repositories:

Ohio Environmental Protection Agency
Southwest District Office
40 S. Main Street
Dayton, Ohio 45402
(513)285-6357 Fax: (513)285-6404
Contact: Lu Ann Leach

Dayton/Montgomery County Public Library
215 East Third Street
Dayton, Ohio
(513)227-9500

Ohio EPA encourages each PRP to review the files concerning this site.

PRP RESPONSE AND OHIO EPA CONTACT

You are encouraged to contact Ohio EPA by July 8, 1994 to indicate your willingness to participate in future negotiations at this site. Your willingness to participate in these negotiations should be communicated to:

Mr. Kurt Kollar
Ohio Environmental Protection Agency
Southwest District Office
Division of Emergency and Remedial Response
40 S. Main Street
Dayton, Ohio 45402
(513) 285-6357 Fax: (513) 285-6404

Mr. Palm

REQUEST FOR INFORMATION

"Attachment D" of this notice letter is an Information Request. Through this request, pursuant to the authority of Section 104(e) of the Comprehensive Environmental Response Compensation and Liability Act (CERCLA), 42 U.S.C. 9604(e), as amended by the Superfund Amendments and Reauthorization Act of 1986, Pub. L. 99-499, and Sections 6111.05 and 3734.20 of the Ohio Revised Code, the Ohio EPA requests you to respond to the enclosed Information Request. Compliance with the enclosed Information Request is mandatory under Section 104(e). Failure to respond fully and truthfully to each and every item in the Information Request within fifteen (15) days of receipt of this letter, or to adequately justify such failure to respond, can result in enforcement action by USEPA pursuant to Section 104(e)(5) of CERCLA which, as amended, authorizes the United States to seek penalties from a federal court of up to \$25,000 for each day of continued non-compliance. "Non-compliance" is considered by USEPA and Ohio EPA to be not only the failure to respond to the Request but also failure to respond completely and truthfully to each item in the Request.

Both USEPA and Ohio EPA have the authority to use the information requested herein in an administrative, civil or criminal action. Please be further advised that provision of false, fictitious, or fraudulent statements or representations may subject you to criminal penalties of up to ten thousand dollars (\$10,000) or up to five (5) years of imprisonment, or both, under 18 U.S.C. 1001. This Information Request is not subject to the approval requirements of the Paperwork Reduction Act of 1980, 44 U.S.C. 3501, et seq.

The Information Request is directed to your company, its officers, directors, and employees and its subsidiaries, divisions, facilities, and their officers, directors, and employees.

The information requested herein must be provided notwithstanding its possible characterization as confidential information or trade secrets. You may request, however, that such information be handled as confidential business information. A request for confidential treatment must be made when the information is provided, since any information not so identified will not be accorded this protection by either USEPA or Ohio EPA. Information claimed as confidential will be handled in accordance with the provisions of 40 CFR Part 2 and Rule 3745-49-03 of the Ohio Administrative Code. In order to facilitate the handling of any confidential business or financial information, please provide such information on separate pages and group all such pages together in

Mr. Palm
March 31, 1994
Page 6

one portion of the response. Clearly identify the information as confidential by placing the word "confidential" in the upper right hand corner of the first page containing the information and on the cover letter transmitting it.

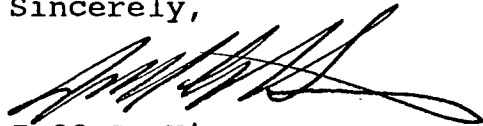

Your response to this Information Request should be mailed to:

Valleycrest Landfill Dayton, Ohio

Introduction

This fact sheet presents:

- background information on the North Sanitary Landfill, Inc. site (more commonly known as the Valleycrest Landfill);
- information on the community relations activities that will occur at the site;
- where Ohio EPA is now in its search for parties responsible for depositing and generating wastes that went to the site; and
- what activities are next.

Site Background

On June 23, 1993, the Valleycrest Landfill was proposed by U.S. EPA for inclusion on its list of the nation's worst toxic waste sites. The Valleycrest Landfill is located along both sides of Valleycrest Drive in North Dayton. The site occupies approximately 100 acres. From the 1940's to the 1970's, the site was used for sand and gravel mining. Between 1966 and 1989, the site was used as a landfill.

During landfill operations, industrial and municipal wastes were used to fill the unlined gravel pits created from former mining activities. These wastes included burned foundry sand, baghouse dust, tires, electrical transformers, brake shoe grindings, demolition materials, and drums of chemicals.

Preliminary site assessments conducted between 1990-92 by U.S. EPA and Ohio EPA included soil sampling

and the installation and sampling of 21 ground-water monitoring wells in the sand and gravel material beneath the site. This sand and gravel "aquifer" provides drinking water to over 400,000 people within the city of Dayton and neighboring communities.

Analysis of surface soils showed the presence of lead, mercury, chromium, and PCBs. Analysis of groundwater samples revealed the presence

of volatile organic compounds such as vinyl chloride, trichloroethylene, benzene, toluene, and xylene. Other compounds found in groundwater samples included arsenic and cyanide. Several residential drinking water wells adjacent to the site also were found to be contaminated. These residences have been connected to the city of Dayton's municipal water supply.

Valleycrest Landfill

Community Relations Activities

The overall objectives of the community relations process for the Valleycrest Landfill are threefold: 1) Inform the public of planned or ongoing actions; 2) provide the public the opportunity to express comments on and provide input into cleanup decisions; and 3) identify and resolve conflict. These objectives guide the planning and implementation of the community relations efforts.

Ohio EPA's community relations activities for sites such as the Valleycrest Landfill begins with a survey of local elected officials and area residents. This survey attempts to identify the concerns of the community regarding the site and allows them to have input on how they wish to be kept informed of investigative and cleanup activities.

Responses from the surveys are used to formulate a document called a Community Relations Plan (CRP). The CRP is the vehicle by which Ohio EPA conducts its community relations activities, keeps the public informed of site

progress, and sets the format by which residents can comment on site activities.

Where Are We Now?

In September 1992, Ohio EPA entered into a cooperative agreement with U.S. EPA. This agreement gives Ohio EPA primary responsibility for oversight of investigative activities at the Valleycrest Landfill.

Currently, Ohio EPA is gathering information to identify companies (called Potentially Responsible Parties or PRPs) that have sent waste to the site. These companies can be owners/operators of the site, transporters of wastes to the site, or generators of wastes deposited at the site. Initially, information request letters are sent to companies that, through title and file searches, are found to be linked to the site. Based on responses received from these initial request letters, additional PRPs are identified.

The Next Step

After the PRPs have been identified, Ohio EPA will begin face-to-face discussions with them. Through these discussions, the PRPs will be offered the

opportunity to undertake a comprehensive investigation (called a remedial investigation and feasibility study) of the site to determine the nature and extent of contamination, assess the risks posed to public health and the environment, and develop potential cleanup alternatives.

For More Information

For more information on the Valleycrest Landfill, contact:

Kurt Kollar
Site Coordinator
Ohio EPA
40 South Main Street
Dayton, OH 45402
(513) 285-6357

Miles Davidson
Public Involvement
Coordinator, PIC
Ohio EPA
1800 WaterMark Drive
Columbus, OH 43215
(614) 644-2160

Anyone who would like more information on specific activities planned or those already conducted are encouraged to visit Ohio EPA's Dayton office, by appointment, where site documents can be reviewed.

Also, an administrative record for the site will be established at a local public library. The administrative record serves as the official record upon which site cleanup decisions will be based.

Ohio EPA Investigative Oversight

Ohio EPA's Division of Emergency & Remedial Response (DERR) oversees investigation and cleanup work at hazardous waste sites. DERR conducts this oversight under an enforceable order that legally obligates a PRP(s) to perform work required to investigate and clean up a site. Investigations and cleanups overseen by DERR are conducted in a manner consistent with state and federal laws and regulations. Once a PRP has concluded investigations at a site and has evaluated possible cleanup alternatives, DERR selects the best cleanup plan for the site and invites the public to provide input on this selection process. This helps to ensure the protection of Ohio's citizens and promote responsible restoration of the environment.

ATTACHMENT D
INFORMATION REQUEST

1. Provide a description of the referenced business, including:
 - a) type of work performed at the facility;
 - b) manufacturing processes;
 - c) wastes generated;
 - d) waste disposal practices;
 - e) SIC number.
2. Provide a list of all companies and individuals with which the company made arrangements to dispose of or have hauled away any hazardous wastes, industrial waste, solid waste, and/or other wastes as defined in Chapters 3734 and 6111 of the Ohio Revised Code. Also identify the individual responsible for making arrangements for the disposal or treatment of waste materials at the facility. The time period should include, at the minimum, from 1964 through 1989.
3. Did the company ever make arrangements for disposal of waste materials with North Sanitary Landfill Company, Inc. or Peerless Transportation Company or any other company that disposed of these wastes at the Site? If the answer is "yes" to this question, please answer the following questions.
4. Provide copies of all shipping documents, or other business documents including receipts, relating to the transportation, storage and/or disposal of waste materials at the Site referenced above.
5. Provide the generic, common or trade name and the chemical composition and character (i.e. liquid, solid, sludge) of the materials transported to, stored and/or disposed of at the above referenced Site.
6. For each waste material identified above, please give the total volume in gallons for liquids and in cubic yards for solids, for which the company arranged disposal and list the dates when disposal occurred.
7. Provide copies of all records, including analytical results, and material safety sheets, which indicate the chemical composition and/or chemical character of the waste material(s) transported to, stored, or disposed of at the above referenced Site.
8. Provide a list and description of all liability insurance coverage that is or was carried by the company, including any self-insurance provisions that relate to the waste material identified above.

INSTRUCTIONS

1. A separate response must be made to each of the questions set forth in this Information Request.
2. Precede each answer with the number of the Information Request to which it corresponds.
3. In answering each Information Request, identify all contributing sources of information.
4. If information is not known or is not available to the Respondent as of the date of submission of his/her response, should information later become known by or available to the Respondent, Respondent must supplement his/her response to Ohio EPA. Moreover, should the Respondent find, at any time after the submission of his/her response that any portion of the submitted information is false or misrepresents the truth, Respondent must notify Ohio EPA thereof as soon as possible.
5. For each document produced in response to this Request for Information, indicate on the document, or in some other reasonable manner, the number of the question to which it responds.
6. You must respond to the Information Requests on the basis of all information and documents in your possession, custody or control or in the possession, custody or control of your former or current employees, agents, servants, contractors or attorneys. Furnish such information as is available to you, regardless of whether or not it is based on personal knowledge, and regardless of source.
7. Your response should be accompanied by a notarized affidavit from a responsible company official or representative stating that a diligent record search has been completed and that there has been a diligent interviewing process with present and former employees who may have knowledge of the operations, hazardous substance use, storage, treatment, releases, spills, disposal or other handling practices of the Respondent between (date of purchase) and (present). To the extent that any information you provide relating to these Requests is based on your personal knowledge, or the personal knowledge of your employees, agents, or other representatives, this information shall be in the form of a notarized affidavit.

8. If any documents requested herein have been transferred voluntarily or involuntarily to others or have been otherwise disposed of, identify each such document, identify the person to whom it was transferred, describe the circumstances surrounding such transfer or other disposition, and state the date or approximate date of such transfer or other disposition.
9. The information requested herein must be provided notwithstanding its possible characterization as confidential information or trade secrets. You may, if you desire, assert a business confidentiality claim covering part or all of the information requested, in the manner described by 40 C.F.R. 2.203(b) and OAC 3745-49. Information covered by such a claim will be disclosed only to the extent, and only by means of the procedures set forth in 40 C.F.R. Part 2, Subpart B [See 41 Federal Register 36901 et. seq., (September 1, 1976); 43 Federal Register 4000 et. seq., (September 8, 1978); 50 Federal Register 51654 et. seq., (December 18, 1985)] and OAC 3745-49-03. If no such claim accompanies the information when it is received by the Ohio EPA, it may be made available to the public by the Ohio EPA without further notice to you. You should read carefully the above-cited regulations, together with the standards set forth in Section 104(e)(7) of CERCLA, before asserting a business confidentiality claim, since certain categories of information are not properly the subject of such a claim, as stated in Section 104(e)(7)(ii) of CERCLA.
10. The U.S. EPA has the authority to use the information requested herein in an administrative, civil or criminal action. In addition, Ohio EPA has the authority to use the information requested in any such action.

- and contaminants, and hazardous waste.
11. The terms, "furnish", "describe", or "identify" or "indicate", shall mean turning over to Ohio EPA either original or duplicate copies of the requested information in the possession, custody, or control of the Respondent. Where specific information has not been memorialized in any document but is nonetheless responsive to an information request, you must respond to the request with a written response. If such requested information is not in your possession, custody, or control then indicate where such information or documents may be obtained.
 12. The term "identify" means, with respect to a natural person, to set forth the person's full name, present or last known business address and business telephone number, present or last known home address and home telephone number, and present or last known job title, position or business.
 13. The term "identify" means, with respect to a corporation, partnership, business trust or other association or business entity (including a sole proprietorship), to set forth its full name, address, legal form (e.g. corporation, partnership, etc.), organization, if any, and a brief description of its business.
 14. The term "identify" means, with respect to a document, to provide its customary business description, its date, its number if any (invoice or purchase order number), the identity of the author, addressor, addressee and/or recipient, and the substance or the subject matter.
 15. "Release" means any spilling, leaking, pumping, pouring, emitting, emptying, discharging, injecting, escaping, leaching, dumping, or disposing into the environment, including the abandonment or discarding of barrels, containers, and other closed receptacles containing any hazardous substance or pollutant or contaminant.
 16. "Transaction" or "Transact" means every separate act, deal, instance, occurrence, sale, transfer, giving, delivery, change in ownership, or change in possession.
 17. As used herein, "document" and "documents" shall include writings of any kind, formal or informal, whether or not wholly or partially in handwriting (including by the way of illustration and not by way of limitation), any invoice, receipt, endorsement, check, bank draft, canceled check, deposit slip, withdrawal slip, order, correspondence, record book, minutes, memorandum of telephone and other conversations including meetings, agreements and the like, diary, calendar, desk pad, scrapbook, notebook, bulletin, circular, form, pamphlet, statement, journal, postcard, letter, telegram, telex, report, notice, message, analysis, comparison, graph, chart, interoffice or intraoffice

DEFFINITIONS

For the purpose of the Instructions and Requests for Information set forth herein, the following definitions shall apply:

1. The term "you" or "Respondent" shall mean the addressee of this Request, the addressee's officers, managers, employees, contractors, trustees, predecessors, partners, successors, assigns, subsidiaries and agents.
2. The term "person" as used herein includes, in the plural as well as the singular, any natural person, firm, contractor, unincorporated association, partnership, corporation, trust or governmental entity, unless the context indicates otherwise.
3. "The Site" or "the Facility" shall mean and include the property on or about the Valleycrest Landfill that is bounded by Brandt Street and Valley Street in Dayton, Ohio, and is also known as the North Sanitary Landfill.
4. The term "hazardous substance" shall have the same definition as that contained in Section 101(14) of CERCLA, including any mixtures of such hazardous substances with any other substances including petroleum products.
5. The term, "pollutant" or "contaminant", shall have the same definition as that contained in section 101(33) of CERCLA, and includes any mixtures of such pollutants and contaminants with any other substances.
6. The term "hazardous waste" shall have the same definition as that contained in Section 3734.01 of the Ohio Revised Code and the regulations promulgated thereunder.
7. The term "solid waste" shall have the same definition as that contained in Section 3734.01 of the Ohio Revised Code and the regulations promulgated thereunder.
8. The term "materials" shall mean all substances that have been generated, treated, stored, or disposed of or otherwise handled at or transported to the Site, including but not limited to all hazardous substances, pollutants and contaminants, hazardous wastes, solid wastes, as defined above.
9. The term "hazardous material" shall mean all hazardous substances, pollutants or contaminants, and hazardous wastes, as defined above.
10. The term "non-hazardous material" shall mean all material as defined above, excluding hazardous substances, pollutants

communications, photostat or other copy of any documents, microfilm or other film record, any photograph, sound recording on any type of device, any punch card, disc or disc pack; any tape or other type of memory generally associated with computers and data processing (together with the programming instructions and other written material necessary to use such punch card, disc, or disc pack, tape or other type of memory and together with printouts of such punch card, disc, or disc pack, video tape or other type of memory); including (a) every copy of each document which is not an exact duplicate of a document which is produced, (b) every copy which has any writing, figure or notation, annotation or the like of it, (c) drafts, and (d) attachments to or enclosures with any document.

18. "And" as well as "or" shall be construed either disjunctively or conjunctively as necessary to bring within the scope of these information requests any information which might otherwise be construed to be outside their scope.
19. Words in the masculine shall be construed in the feminine, and vice versa, and words in the singular shall be construed in the plural, and vice versa, where appropriate in the context of a particular question or questions.
20. All terms not defined herein shall have their ordinary meaning, unless such terms are defined in CERCLA, Ohio Revised Code Chapter 3734 or the regulations promulgated thereunder, in which case the statutory or regulatory definitions shall apply.
